

XANBOO™

COLOR VIDEO CAMERA

XCC405

◀ INSTALLATION MANUAL ▶

WORKS WITH **XANBOO SYSTEM CONTROLLER** (XBX105)

SUGGESTED USES

The **XANBOO COLOR VIDEO CAMERA** was designed with multiple uses in mind. To get you started, several examples of the most common uses are included below. You will, no doubt, discover other ways to use your Color Video Camera. For example, combine any of Xanboo's wireless sensors with your Color Video Camera to capture a video image of the event that activated the sensor. That is the beauty of Xanboo's technology, and we invite you to share your discoveries with us.

Please e-mail your comments to marketing@xanboo.com.

Use the **XANBOO COLOR VIDEO CAMERA** to:

- ❖ Monitor caregivers or babysitters
- ❖ Check on your children when they are alone
- ❖ Monitor key locations in your home or business such as doors, the yard, pool, cash register, sales floor or reception area
- ❖ Alert you to the presence of intruders on your premises
- ❖ Monitor elderly or infirm relatives
- ❖ Install up to four cameras to the same System Controller to monitor multiple locations

STEP 1: SOFTWARE SET UP

Launch your **XANBOO™ SOFTWARE** program on your PC. From the Xanboo PC control screen, click “SET UP”. Select “SET UP CAMERAS”.

SCREEN 1: "DETECT CAMERAS" enables you to name cameras by clicking on the text bar under each camera's image

SCREEN 2: "CONFIGURE CAMERAS" allows you to configure the best image for each camera

SCREEN 3: "SET UP IS COMPLETE" captures and saves all your changes.

STEP 2: NOTIFICATION SET UP

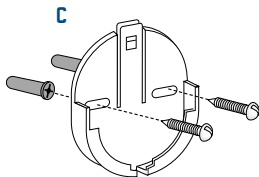

When software set up to your PC is complete, click **XANBOO.COM** on your Xanboo PC control screen to access your personal Xanboo.com account on the Internet and log on. Click “**XANCONTROL**” and then “**NOTIFICATIONS**”. A list of your connected Xanboo accessory devices will appear. Locate your Motion Sensor; click “**EDIT NOTIFICATIONS**” and then “**CREATE NEW NOTIFICATION**”. From the

choices in the drop-down menu, select your preferred notification method, i.e., e-mail, pager, text messaging cell phone or PDA and the appropriate pager/PIN number or e-mail address. You can add or edit notification information from your personal Xanboo.com account by selecting “**XANACCOUNT**”, then click “**CHANGE NOTIFICATION INFO**”.

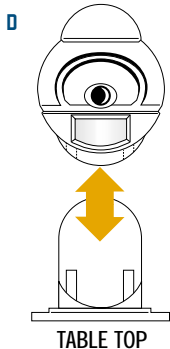

STEP 3: HARDWARE INSTALLATION

To place your camera on a flat surface, use the attached table top stand. If you wish to wall mount your camera, follow the steps below.

- A. Stop running the Xanboo software.
- B. Unplug the camera you are going to mount from the back of the Xanboo System Controller .

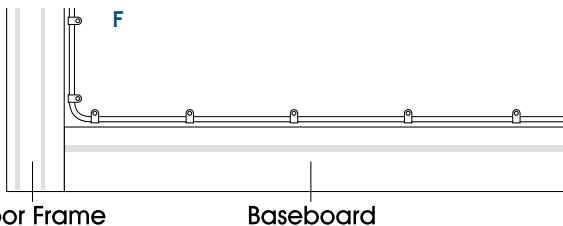

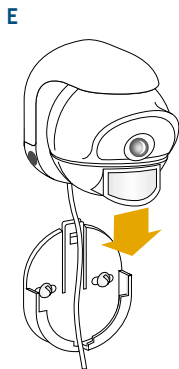

- C. Select the area in which you wish to mount your **XANBOO COLOR VIDEO CAMERA** and use the provided screws and mollies to secure the bracket in place.

D. Remove the table top stand from the **KANBOO COLOR VIDEO CAMERA** by pulling it away from the camera and sliding the cord through.

E. Slide your **KANBOO COLOR VIDEO CAMERA** into the wall mount bracket and adjust it to your viewing preference.

F. Use cable clips provided to secure the camera cable along baseboards and around doors. Try to avoid aligning the video cable next to electrical wires for extended distances as the electric field of the wires may interfere with picture quality.

G. Re-connect your camera to the port it was removed from on the back of your **KANBOO SYSTEM CONTROLLER**.

STEP 4: ARMING YOUR CAMERA'S BUILT-IN MOTION SENSOR

From the Xanboo PC control screen, click the **"ARM"** button . From the choices in the pop-up menu, select when you would like to arm your Sensor. In order to receive a notification message in your personal Xanboo.com account when your sensor detects an event, it must be armed through your Xanboo PC control screen **"ARM"** button each time you launch your Xanboo Software program.
